Lyre AI

AI voice agents that call every sales lead within minutes, in the customer's own language.

PROBLEM

Indian businesses pay for sales leads, then call them back too late, in the wrong language.

- A buyer fills a Meta ad form at 9pm. The callback comes the next afternoon. By then they've spoken to a competitor.
- Sales teams can't cover nights, weekends or a spike of 500 leads after a campaign.
- Customers switch between Hindi, Telugu and English mid-sentence. Most voice bots handle only one language.

SOLUTION

Lyre calls every lead within minutes, qualifies them, and hands your team the hot ones.

01

A lead comes in

From a Meta ad, your CRM, or an inbound call to your number.

02

Lyre calls and talks like your best salesperson

In Hindi, Telugu, Tamil, Kannada or English, answering from your brochures and price lists.

03

Your team gets a qualified lead

Budget, need and timeline, plus the booked visit, sent to your CRM or WhatsApp.

04

Lyre follows up

Calls back when the customer asked, picking up their interests and requests from the last call.

LIVE DEMO

Watch Lyre call a real phone and sell a flat, switching between Telugu and English.

Try it: demo.lyreai.life · **clara@lyreai.com** / **admin123**

- The caller switches language mid-sentence. The agent follows.
- The caller asks about price and amenities. The agent answers from the uploaded brochure.
- The call ends. A qualified lead with a booked site visit appears on the dashboard.

HOW IT WORKS

A real phone call, turned into speech, reasoning and a spoken reply in real time.

01 · Phone

Twilio & Exotel

Indian numbers through Exotel, international through Twilio, streamed live.

02 · Listen

Deepgram & Sarvam

Speech-to-text tuned for Indian languages and code-switching.

03 · Think

Gemini + LangGraph

An industry conversation graph, searching your brochures in Pinecone.

04 · Speak

Natural voice reply

Callers can interrupt any time, like a real conversation.

WHAT WE BUILT

Working end to end: real phone calls, 3 industries, 5 Indian languages.

- Sales agents for real estate, two-wheelers and home appliances
- A studio where a business sets up its agent, uploads brochures and gets a phone number
- Meta lead ads trigger a call automatically; every call ends with a scored lead and transcript

WHY IT'S DIFFERENT

Indian buyers don't speak one language per call. Our agents switch languages when the caller does.

- Each industry gets its own conversation flow (pitch, objections, booking), not one generic prompt.
- We rebuilt product search for Indian languages after off-the-shelf models failed on Hindi and Telugu questions.

BUSINESS MODEL

Businesses pay a monthly plan that includes call minutes, plus a per-minute rate above that.

Starter

$99 / mo

1,000 minutes · $0.12 / extra min

Growth

$399 / mo

5,000 minutes · $0.09 / extra min
